Product highlights

24carat gold-plated connectors

24 carat gold-plated connectors ensure the best signal quality for your components.

Stranded conductor

The stranded wire evenly distributes stress so no single area is overburdened. It provides more flexibility for easier positioning.

100% aluminum shielding

This protective layer of aluminum guards against electromagnetic interference for improved signal quality.

Twisted high purity OFC

This oxygen-free copper conductor provides the highest accuracy in signal transfer with minimal resistance.

Braided Shielding

Copper braided reinforced aluminum shielding protects against signal loss and interference.

Plug and play

Plug and play offers easy installation of components without time-consuming installations.

Metal shell

The metal shell protects the internal connection of the cable. It ensures durability and the reliability of your connection.

Super pliable jackets

Super pliable PVC jackets are abrasion-resistant for outstanding flexibility and protection against everyday wear and tear.

Rubber strain relief
